Professional Summary

Computer Science and Business Systems student skilled in HTML, CSS, Bootstrap, and JavaScript. Experienced in building responsive web applications, integrating REST APIs, handling JSON data and working with asynchronous JavaScript. Familiar with Git, GitHub, Linux, and Docker. Seeking entry-level Software Developer opportunities to apply web development skills.

Technical Skills

- **Languages:** JavaScript
 - **Concepts:** Async/Await, JSON Handling, Event Handling, Local Storage, DOM Manipulation
 - **Web Technologies:** HTML5, CSS3, Bootstrap, REST API Integration
 - **Tools:** Git & GitHub, Linux (Basic), Docker, Docker Compose
-

Projects

1) Google Play Store Clone Web Application - HTML, CSS, Bootstrap, JavaScript, REST API

[Live Demo](#) | [GitHub](#)

- Developed a responsive web application that displays game data using the FreeToGame REST API.
- Implemented search, category, and platform-based filtering with dynamic content rendering.
- Built a game details page using localStorage and Bootstrap for a mobile-friendly UI.

2) Weather Application - HTML, CSS, JavaScript, REST API

[Live Demo](#) | [GitHub](#)

- Built a weather application that fetches real-time weather data from the OpenWeather API.
- Used Fetch API and async/await to retrieve and display weather information dynamically.
- Implemented JSON data processing, error handling, and deployed the application on GitHub Pages.

3) Dockerized MERN Application Deployment - Docker, Docker Compose

[GitHub](#)

- Containerized a MERN-based application using Docker and Docker Compose.
- Created Dockerfiles for frontend and backend services and configured multi-container deployment.
- Managed container networking and volume persistence to enable local application execution.

4) Expense Tracker Web Application - HTML, CSS, JavaScript

[Live Demo](#) | [GitHub](#)

- Developed an expense tracker to manage income and expenses with real-time balance updates.
 - Implemented DOM manipulation for transaction management and dynamic UI updates.
 - Used localStorage and input validation to improve data persistence and user experience.
